(Former name or former address, if changed since last rep	ort)	

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

□ Written communication pursuant to Rule 425 under the Securities Act (17 CFR 230.425)

□ Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)

Pre-commencement communication pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b)

Pre-commencement communication pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 2.02 Results of Operations and Financial Condition.

On May 7, 2008, Enzon Pharmaceuticals, Inc. ("Enzon") issued a press release reporting certain financial and other information for the quarter ended March 31. 2008. A copy of Enzon's press release dated May 7, 2008, is attached as Exhibit 99.1 to this Current Report and is incorporated by reference into this Item 2.02.

The information in this Item 2.02, including Exhibit 99.1, is being furnished and shall not be deemed to be "filed" for purposes of Section 18 of the Securities Exchange Act of 1934 (the "Exchange Act") or otherwise subject to the liability of that Section, nor shall such information be deemed to be incorporated by reference into any registration statement or other document filed under the Securities Act of 1933 or the Exchange Act, except as otherwise stated in that filing.

Item 8.01 Other Events.

On May 7, 2008, Enzon issued a press release announcing that its Board of Directors has authorized a plan to spin-off its novel biotechnology business from Enzon in a transaction that will result in two independent and highly focused public companies. A copy of Enzon's press release dated May 7, 2008, is attached as Exhibit 99.2 to this Current Report and is incorporated by reference into this Item 8.01.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits.

<u>Exhibit No.</u>	Description
99.1	Press Release of Enzon Pharmaceuticals, Inc. dated May 7, 2008
99.2	Press Release of Enzon Pharmaceuticals, Inc. dated May 7, 2008

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Dated: May 7, 2008

ENZON REPORTS STRONG FIRST QUARTER 2008 RESULTS

BRIDGEWATER, NJ — May 7, 2008 — Enzon Pharmaceuticals, Inc. (Nasdaq: ENZN) today announced strong first quarter 2008 financial results. For the three months ended March 31, 2008, Enzon reported a net income of \$1.5 million or \$0.03 per diluted share, as compared to a net loss of \$2.8 million or \$0.06 per diluted share for the first quarter of 2007. The Company's first quarter 2008 results were positively impacted by strong revenues across all business segments.

"The Company continues to generate strong top-line results across all of our business segments," said Jeffrey H. Buchalter, chairman and chief executive officer of Enzon. "Earlier today, we announced a plan to spin-off our biotechnology business. The spin-off, upon completion, will allow the two independent companies to focus on their core competencies and appeal to their own unique shareholders."

Recent Highlights

- The Company reduced a significant portion of its 2008 debt ahead of the required timeline to only \$12.5 million.
- PEG-SN38 was featured in the March 15th issue of *Clinical Cancer Research* published by the American Association for Cancer Research, Inc. (AACR).
- The Company presented preclinical data on the HIF-1alpha antagonist at the 2008 AACR annual meeting in San Diego, California.
- The Company closed its Phase I trial evaluating Oncaspar® in combination with Gemzar® for patients with solid tumors and lymphoma.
- In April, Cimzia[®], which utilizes Enzon's PEGylation technology, was approved in the U.S. for the treatment of moderate to severe Crohn's disease.

Revenues

The following table reflects the revenues generated by product and segment for the three month periods ended March 31, 2008 and 2007.

	Three Months Ended (in thousands)				
	March	March 31, 2008		March 31, 2007%	
<u>Products</u>					
Oncaspar	\$	12,288	\$	7,467	65
DepoCyt		1,968		2,369	(17)
Abelcet		7,020		7,686	(9)
Adagen		6,153		5,127	20
Total Products		27,429		22,649	21
Royalties		14,700		16,344	(10)
Contract Manufacturing		6,644		2,495	166
Total Revenues	<u>\$</u>	48,773	\$	41,488	18

Products Segment

Product segment sales comprised of sales of Oncaspar®, DepoCyt®, Abelcet®, and Adagen®, increased 21 percent to \$27.4 million for the three months ended March 31, 2008, compared to \$22.7 million for the three months ended March 31, 2007. The growth was mainly attributable to higher revenues from the Company's oncology product, Oncaspar. The product benefited from a \$1.2 million international shipment in the first quarter of 2008, which did not occur in the first quarter of 2007. Sales of Oncaspar are reflective of a price increase and the continued adoption in certain protocols by hospitals and cooperative groups. Sales of DepoCyt, for treatment of lymphomatous meningitis and sales of Adagen, for treatment of Severe Combined Immunodeficiency Disease (SCID), tend to fluctuate from quarter-to-quarter due to the small number of patients treated. The decline in Abelcet, for the treatment of invasive fungal infections, continues to be attributable to competitive pressures in the marketplace, although the rate of decline this quarter is lower than the quarterly average in the last year.

Royalties Segment

Revenues from the Company's royalties segment for the three months ended March 31, 2008 decreased to \$14.7 million, as compared to \$16.3 million for the three months ended March 31, 2007. The reduction in royalties from the prior year was due to the partial PEG-INTRON monetization which occurred in August 2007. This resulted in a 25% reduction in royalties we received on PEG-INTRON. This decrease is partially offset by the underlying growth in PEG-INTRON. In April 2008, Cimzia was approved by the FDA for the treatment of moderate to severe Crohn's disease. The product was developed and will be marketed by UCB. Since Cimzia utilizes Enzon's PEGylation technology, Enzon is entitled to royalties on its net sales.

-2-

Contract Manufacturing Segment

The Company's revenues from its contract manufacturing segment increased to \$6.6 million for the three months ended March 31, 2008, as compared to \$2.5 million for the comparable period of 2007. The increase in contract manufacturing revenue was the combined result of the timing of shipments to customers and additional non-routine services provided to our existing customers. Due to the timing of shipments, quarter-to-quarter variability is not uncommon and it is not anticipated that the level of sales achieved this quarter will continue throughout the year.

Cost of Product Sales and Contract Manufacturing

The Company's cost of goods sold was \$16.1 million for the three months ended March 31, 2008, compared to \$11.5 million for the three months ended March 31, 2007. The increase is a direct result of the increase in products sales and contract manufacturing revenues for the first quarter of 2008.

Research and Development

Research and development spending was relatively flat this quarter compared to the corresponding quarter in 2007. As previously disclosed, the Company is increasing efforts to transfer the raw material and improve the pharmaceutical properties of Oncaspar and Adagen. These enhancements will require investment in both products for the next few years. As previously noted, the Company decided to close its Phase I study of Oncaspar. The decision was made after dose limiting toxicities were observed for the combination of Oncaspar and Gemzar for patients with various solid tumors and lymphoma. Despite Enzon's decision not to advance the clinical development of Oncaspar, investigators remain interested in exploring Oncaspar's use in solid tumors through their own studies. The Company also continues to enroll patients in its HIF-1alpha antagonist, PEG-SN38 and rhMBL programs. Data from these programs will be available at major medical meetings throughout the year.

Selling, General and Administrative

Selling, general and administrative expense decreased to \$15.4 million for the three months ended March 31, 2008 from \$17.1 million in the year earlier quarter. This was due primarily to the first quarter 2007 vesting of certain stock option awards not recurring in first quarter 2008. The Company continues to make select investments in selling, marketing, and other initiatives to support its product sales performance. As previously mentioned, during the fourth quarter of 2007, the Company proactively realigned its sales territories and refocused the sales force to promote the Enzon marketed brands.

Restructuring Charge

The Company continues to consolidate manufacturing operations in its Indianapolis, Indiana location. All operations at the Company's South Plainfield, New Jersey facility are expected to be transferred to the Company's Indianapolis facility in 2008, resulting in the incurrence of certain restructuring and exit costs. Among these costs will be employee severance and related benefits for affected employees. In connection with our restructuring program for the three months ended March 31, 2008 the Company incurred a total cost of \$1.3 million compared to \$0.6 million for the three months ended March 31, 2007.

Other Income (Expense)

Other (income) expense for the three months ended March 31, 2008 was net expense of \$0.9 million, as compared to net expense of \$1.9 million for the three months ended March 31, 2007. Other (income) expense includes: net investment income, interest expense and other income or expense. The decrease was principally due to interest expense, which includes amortization of deferred offering costs. Interest expense was \$3.4 million for the three months ended March 31, 2008 and \$4.6 million for the three months ended March 31, 2007 reflecting the declining balance of the Company's 4.5% notes payable. Net investment income was relatively constant at \$2.2 million for the three months ended March 31, 2008 compared to \$2.6 million for the three months ended March 31, 2007.

Cash and Investments

Total cash reserves, which include cash, cash equivalents, short-term investments, marketable securities, and restricted investments and cash, were \$198.8 million as of March 31, 2008, as compared to \$258.2 million as of December 31, 2007. During the first quarter of 2008, the Company purchased \$59.9 million of its existing 2008 convertible notes leaving a balance of \$12.5 million of 2008 notes due. As of March 31, 2008, \$14.5 million was held in a restricted cash account for the sole purpose of extinguishing the remaining outstanding 2008 debt.

Conference Call and Webcast

Enzon will be hosting a live conference call today, May 7 at 10:00 am EST. All interested parties may access the call by using the following information:

Domestic Dial-In Number:	(866) 334-3876
International Dial-In Number:	(416) 849-4292
Access Code:	Enzon

Enzon's conference call will also be available via live audio webcast at www.investorcalendar.com. For those unable to attend the live audio webcast, a replay will be available beginning approximately one hour after the event. Additionally, a telephonic rebroadcast will be available following the call. The rebroadcast will begin on Wednesday, May 7, 2008, at approximately 12:00 p.m. EST and end on May 14, 2008, at approximately 12:00 p.m. EST. The rebroadcast may be accessed using the following information:

Domestic Dial-In Number:	(866) 245-6755
International Dial-In Number:	(416) 915-1035
Access Code:	809911

About Enzon

Enzon Pharmaceuticals, Inc. is a biopharmaceutical company dedicated to the development, manufacturing, commercialization of important medicines for patients with cancer and other life-threatening conditions. Enzon has a portfolio of four marketed products, Oncaspar®, DepoCyt®, Abelcet® and Adagen®. The Company's drug development programs utilize several cutting-edge approaches, including its industry-leading PEGylation technology platform used to create product candidates with benefits such as reduced dosing frequency and less toxicity. Enzon's PEGylation technology was used to develop two of its products, Oncaspar and Adagen, and has created a royalty revenue stream from licensing partnerships for other products developed using the technology. Enzon also engages in contract manufacturing for several pharmaceutical companies to broaden the Company's revenue base. Further information about Enzon and this press release can be found on the Company's web site at <u>www.enzon.com</u>.

Forward Looking Statements

There are forward-looking statements contained herein, which can be identified by the use of forward-looking terminology such as the words "believes," "expects," "may," "will," "should," "potential," "anticipates," "plans," or "intends" and similar expressions. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results, events or developments to be materially different from the future results, events or developments indicated in such forward-looking statements. Such factors include, but are not limited to the timing, success and cost of clinical studies; the ability to obtain regulatory approval of products, market acceptance of, and continuing demand for, Enzon's products and the impact of competitive products and pricing. A more detailed discussion of these and other factors that could affect results is contained in our filings with the U.S. Securities and Exchange Commission, including our annual report on Form 10-K for the period ended December 31, 2007. These factors should be considered carefully and readers are cautioned not to place undue reliance on such forward-looking statements. No assurance can be given that the future results overed by the forward-looking statements will be achieved. All information in this press release is as of the date of this press release and Enzon does not intend to update this information.

ENZON PHARMACEUTICALS, INC. ANNOUNCES PLAN TO SPIN-OFF BIOTECHNOLOGY BUSINESS

BRIDGEWATER, N.J., May 7, 2008 (BUSINESS WIRE) — Enzon Pharmaceuticals, Inc. (Nasdaq: ENZN) today announced that its Board of Directors has authorized a plan to spin-off its novel biotechnology business from Enzon in a transaction that will result in two independent and highly focused public companies.

"By separating these unique businesses into two focused companies, the opportunities for both the specialty pharmaceutical business and the biotechnology business could be substantially enhanced and greater value could be created than under the current structure," said Jeffrey H. Buchalter, Chairman, President and CEO. "Operating separately will allow each company to benefit from greater strategic and managerial focus and appeal to their own unique shareholders. The separation will enable the two businesses to compete more effectively in their respective markets and optimize their business goals, research initiatives and capital requirements. We look forward to creating this opportunity for the shareholders," said Mr. Buchalter.

Upon completion of the spin-off, Mr. Buchalter will serve as Chairman, President and CEO of the new biotechnology company and Craig Tooman, the current CFO of Enzon, will assume the role of President and CEO of Enzon. Each company will operate with independent management teams and additional details regarding management structure will be determined and disclosed at a later time.

Following the spin-off of the biotechnology company, Enzon will retain the current marketed products of Abelcet[®], Adagen[®], DepoCyt[®] and Oncaspar[®], the rights to current PEG royalty revenues, including PEG-Intron[®], Cimzia[®] and Hematide[®], and the manufacturing facility in Indianapolis. The Company expects that the functional support associated with these operations will continue at Enzon. In addition, Enzon's outstanding convertible notes would remain as obligations of the company.

"The specialty pharmaceutical business will continue its long-standing track record in providing life saving therapies for patients. The business has strong fundamentals, including stable revenue, cash flow, and strong assets," said Mr. Buchalter. "Upon completion of the spin-off, Enzon will have the resources to better focus its strategy and compete more effectively in the specialty pharmaceutical market."

The biotechnology company resulting from the spin-off will continue to leverage its customized PEGylation technology for licensing, collaboration and future royalty generation, and novel Locked Nucleic Acid (LNA) technology to develop promising therapeutics for oncology. Enzon expects to sufficiently capitalize the new company with approximately \$150 million of cash, representing approximately two to three years of anticipated cash need to fund research and development efforts based on company projections.

"The spin-off of the biotechnology business will permit this entity to become a highly focused biotechnology company, strategically concentrating on its new PEGylation and novel LNA technology platforms to better develop progressive therapeutics, such as PEG-SN38, HIF1-alpha and rhMBL, for patients with life-threatening oncology conditions. With a better focus on our development efforts, the biotechnology business will be uniquely positioned to forge new paradigms of oncology therapy," said Mr. Buchalter.

Completion of the proposed spin-off is subject to numerous conditions, including final approval by Enzon's Board of Directors, the filing and effectiveness of a registration statement with the Securities and Exchange Commission (SEC) and any necessary third-party consents. Enzon is currently evaluating whether or not the proposed spin-off would qualify as a tax-free stock distribution. Enzon has retained Goldman, Sachs & Co. as financial advisor, Skadden, Arps, Slate, Meagher & Flom LLP as legal advisor and Mercer as human capital consultant with respect to the spin-off transaction, which is expected to be completed in the fourth quarter of 2008.

About Enzon

Enzon Pharmaceuticals, Inc. is a biopharmaceutical company dedicated to the development, manufacturing, commercialization of important medicines for patients with cancer and other life-threatening conditions. Enzon has a portfolio of four marketed products, Oncaspar®, DepoCyt®, Abelcet® and Adagen®. The Company's drug development programs utilize several cutting-edge approaches, including its industry-leading PEGylation technology platform used to create product candidates with benefits such as reduced dosing frequency and less toxicity. Enzon's PEGylation technology was used to develop two of its products, Oncaspar and Adagen, and has created a royalty revenue stream from licensing partnerships for other products developed using the technology. Enzon also engages in contract manufacturing for several pharmaceutical companies to broaden the Company's revenue base. Further information about Enzon and this press release can be found on the Company's web site at <u>www.enzon.com</u>.

Forward Looking Statements

There are forward-looking statements contained herein, which can be identified by the use of forward-looking terminology such as the words "believes," "expects," "may," "will," "should," "potential," "anticipates," "plans," or "intends" and similar expressions. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results, events or developments to be materially different from the future results, events or developments indicated in such forward-looking statements. Such factors include, but are not limited to the timing, success and cost of clinical studies; the ability to obtain regulatory approval of products, market acceptance of, and continuing demand for, Enzon's products and the impact of competitive products and pricing. A more detailed discussion of these and other factors that could affect results is contained in our filings with the U.S. Securities and Exchange Commission, including our annual report on Form 10-K for the period ended December 31, 2007. These factors should be considered carefully and readers are cautioned not to place undue reliance on such forward-looking statements. No assurance can be given that the future results covered by the forward-looking statements will be achieved. All information in this press release is as of the date of this press release and Enzon does not intend to update this information.
